

## نحوه ورود به کلاسهای آنلاین :

- ابتدا وارد سامانه آنلاین شده ( Lms.jku.ac.ir )  
نام کاربری = شماره دانشجویی  
پسورد = کدملی
- وارد کلاس آنلاین شده و " پیوستن به جلسه " زده .
- وارد برنامه BigBlueButton شده . نیازی به نصب نرم افزار نمی رباشد. فقط باید مرورگر شما آپدیت باشد و بهتر است از گوگل کروم استفاده کنید .
- **دانشجویان** وقتی وارد کلاس شدند **حتما** گزینه " **شنونده** " را انتخاب کنید .

**Abstract:** The advancement and introduction of computing tech highly effective and has resulted in the production of large amount of data which is analyzed. However, there is much concern on the privacy protection of this data which suffers from the possibility of being exploited or exposed to unauthorized parties. There are many methods of preserving this information they are not complete and also have issues with privacy or data utility. Hence this paper proposes a solution for such issues with an effective perturbation algorithm of optimal geometric transformation. The proposed work has been evaluated on accuracy, attack resistance, scalability and efficiency with the proposed algorithms and 9 datasets. Experimental analysis indicates that the proposed algorithm is successful in terms of attack resistance, scalability, execution time and accuracy compared with other algorithms that are used for privacy preservation.

**Keywords:** Big data, data perturbation, big data privacy, privacy information privacy

گفتگوی عمومی

Welcome to مدیریت رفتار سازمانی! For help on using BigBlueButton see these (short) tutorial videos.

To join the audio bridge click the phone icon (top center). Please use a headset to avoid causing background noise for others.

این جلسه ضبط خواهد شد

.This server is running BigBlueButton
